

Good evening family

### **Health & awareness**

It's now more than a month since the last case of Ebola in DRC. If it stays that way, the outbreak will be declared over in less than a month's time. That same spirit of solidarity must be at the centre of our efforts to defeat COVID-19. More than 287,000 cases of COVID-19 have been reported to WHO, and more than 11,900 people have lost their lives. Many countries, communities and people now face escalating epidemics and are feeling overwhelmed.

- Don't assume your community won't be affected. Prepare as if it will be.
- Don't assume you won't be infected. Prepare as if you will be.
- But there is hope. Please follow the President's warnings and restrictions as this will reduce the burden on our health system and ultimately save many lives.

This virus is presenting us with an unprecedented threat. But it's also an unprecedented opportunity to come together as one against a common enemy – an enemy against humanity. Enough literature regarding awareness, education and prevention has been circulated amongst ourselves.

Please do your bit and pass onto others. There are notices placed in this venue – please take the time to read them. *We're all responsible for reducing our own risk of infection, and if we're infected, for reducing our risk of infecting others.*

### **Safety**

Fire escape routes.

### **Warning**

Please remain responsible if you are drinking and don't drive.

### **Mobile phones**

If you are going to disrupt the event with mobile phones – please make sure you get a picture with me ..
